By: 30 NAVA Date:

1 DO 13 JAN. '45

To CO, 315th INF:

Co. "K" has made no progress since 1100.

They receive tank fire near church, also from tank between 3 and 4. At 1450, 68th reported reaching 4, but at 1500 reported unable to hold it. I had ordered another plat. of Co. "K" to proceed W from Pt 1 to road running N from Kuhlendorf-Hatten rd, thence N, thence E to Pt 4, and join up with other plat. of "K", but am now holding them so as not to pile up behind 68th. Co. "L" unable to enter church. Have blasted holes in houses SW of 5 for tanks to fire through in attempt to get tank near 7.

68th claims one tank and one probable.

48th trying to move tanks toward 9 from EAST now.

Am using arty, mortars, bazookas continuously. TD's have fired 90 rounds so far.

Eason, CO

SUBJECT: Recommendations for Engineer work to be performed at HAGUENAU.

1. All buildings N. of the Moder River in the vicinity of HAGUENAU to be demolished prior to occupation of new M.R. to permit observation to the front.

2. All bridges along Moder river in the sector to be prepared for demolition prior to withdrawal. These bridges not to be used to be blown prior to withdrawal.

3. Railroad bridge at 033243 has been blown but is not clear of debris. Engineers to clear the debris at these coordinates prior to withdrawal.

4. At coordinates 042247 in the Moder River is a shallow spot caused by water break. This to be blown prior to withdrawal since enemy could use this location to cross Infantry troops.

5. Engineers to check all roads within withdrawal sector (except prescribed route of withdrawal) to insure that all bridges are blown and that log abatis have been placed across roads at strategic locations. Bridges along route of withdrawal to be prepared for demolitions and guarded.

6. Concertina wire to be extended around OPL over entire front. A.P. mines to be placed in concertina wire.

7. More protective wire in front of M.R. to include entire front.

8. Several foot bridges at (locations to be selected by occupying personnel) to be constructed by Engineers for use by OPL Personnel. Bridges to be prepared for demolitions.
